

LABELS USED IN SHIPPING

UN SPECIFICATION MARK *(Not a label but marking on box)*

This represents the type of packaging, the class, year made, authorizing agency, and manufacturer. Each 602 –shipping container must bear the **UN SPECIFICATION MARK**.

Carrier must not accept packages without this mark.

ORIENTATION LABELS

Two needed on Infectious Substances, not required on Diagnostic Specimens.

Place on opposite sides of box adjacent to address side.

Sender: _____

Ph: _____

SHIPPER INFORMATION LABEL

Place in upper left hand quadrant of box.

Receiver: _____

PH: _____

RECEIVER INFORMATION LABEL

Place below sender label in upper left hand quadrant of box.

Person Responsible
NAME: _____
PHONE: _____

PERSON RESPONSIBLE LABEL

Must be used with Infectious Substances shipments but can be used with Diagnostic Specimens shipments.

Place below the Sender/Receiver Labels.

DIAGNOSTIC SPECIMEN LABEL

Used for shipping Diagnostic Specimens

Place below Sender/Receiver Labels.

DIAGNOSTIC

SPECIMENS

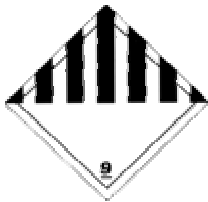

DIAGNOSTIC SPECIMENS TEXT LABEL

Used with Diagnostic Specimens shipments, place below Diagnostic Specimens Label.

SHIPPERS DOCUMENTS (AIRWAY BILL)

UN #### Proper Shipping Name
(Technical Name)
Quantity ____ml/g

UN 1845 DRY ICE
NET WT

OVERPACK

NOT A LABEL BUT LOCATION ON TOP OF BOX FOR DOCUMENTS NECESSARY FOR SHIPMENT.

Infectious Substances requires a shipper's declaration & airway bill.
Diagnostic Specimens requires only an airway bill.

CLASS 6 LABEL

Must be used with Infectious Substances shipments. Place in upper right quadrant of box. Label must be 4" square.

PROPER SHIPPING NAME LABEL

Must be used with Infectious Substances. Use appropriate shipping name, technical name and UN #. Place adjacent (*left*) to Class 6 label.

CLASS 9 (MISCELLANEOUS) DANGEROUS GOODS LABEL

Used only when shipping with Dry Ice. Place in lower right quadrant of box. Place on same side of box as Class 6 label if possible.

DRY ICE LABEL

Used when shipping with Dry Ice. Quantity (in kg) of Dry Ice must be written on label. Place adjacent to Class 9 label.

"DANGER" DO NOT LOAD IN PASSENGER AIRCRAFT LABEL

Placed on packages that must be shipped only by cargo aircraft according to 49CFR172.101&IATA DGR..

OVERPACK LABEL

For convenience and lower costs, one or more complete packages may be shipped in a single box (an "overpack"). Each package in the overpack must be a complete package properly prepared and labeled according to applicable IATA regulations. The "overpack label" must be clearly visible on the package.
